

The WK60 skip loader scale

1 Weighing electronics

2 Measuring element ASK-2

3 Radio modul

Weighing possible in any container position

The wireless weighing system can be installed in any skip loader of your fleet – even as a retrofit. The weight is determined directly when raising the container and sent by radio to the weighing electronics. Due to the low dead weight you can load maximum loads.

Overview of functions

- Approved for legal metrology and conformity assessed by PFREUNDT
- Simple and intuitive operation through touch display
- Comprehensive and customizable master and weighing data management
- No change in the overall height of your vehicle
- The measuring cell is not loaded while driving
- Thanks to the radio connection, broken cables are no longer an issue

Scope of delivery

- WK60 electronics
- 2 measuring elements with bolt set, housing with measuring cell, chain holder adapter and if necessary chain holder, radio modul
- 1 radio modul (receiver)
- 1 antenna
- Additionally 2 proximity switches for skip loaders with swing arms

Accessories

- Printer
- Weighing tickets and weighing ticket box
